

ESPRIT ANTI-CORROSION PTZ

CRYSTAL CLARITY IN VARIABLE LIGHTING AND ANY WEATHER

The Esprit Anti-Corrosion PTZ Series is a corrosion-resistant Day/Night Pan-Tilt-Zoom (PTZ) camera with 40x zoom and full 1080p resolution to accurately identify details in dark environments. Designed with AISI 316L stainless steel and micro-shot, electro-polished surfaces, it offers maximum resistance in corrosive environments, ideal for effective video monitoring in offshore/onshore marine environments and for ports and roadways. In addition, the Esprit Anti-Corrosion PTZ offers IP66/IP67/IP68/IP69 certifications and a NEMA Type 4X rating, ensuring protection against extreme conditions, including water and dust.

RUGGED CONSTRUCTION

AISI 316L stainless steel with micro-shot, electro-polished surfaces offers maximum corrosion resistance.

HIGH-TEMPERATURE RANGE

Optimized to operate reliably even at increased temperature variances: from -40°C (-40°F) up to +50°C (+122°F).

ONVIF® COMPLIANT

ONVIF Profile Q, S and T compliance provides easy integration with existing ONVIF infrastructures. Integrates with Pelco VideoXpert and other leading video management systems.

WEATHER RESISTANT

Rated NEMA Type 4X and IP66/67/68/69 for water, corrosion and dust resistance.

LLOYD'S REGISTER MARINE TYPE APPROVAL

Obtained Lloyd's Register Marine Type Approval for the maritime and shipping sector and complies with the standard for railway applications.

PEACE OF MIND

We back this camera with a 5-year industry-leading warranty.
